Rick Roberts and Daniel Ciment Join RTX Technologies Advisory Board

New York, NY – 7 July 2025 - RTX Technologies LLC accelerates its journey as a central player in 24-hour US equities trading with our new Advisory Board. We welcome Rick Roberts and Daniel Ciment to provide strategic guidance in developing critical infrastructure and client-focused solutions for 24-hour best-execution trading.

Rick Roberts, a former SEC Commissioner and current Board Member of the Texas Stock Exchange, brings extensive regulatory experience to foster trust and compliance, enabling broader participation during extended trading hours. His expertise will enhance the accessibility and reach of our platform.

Daniel Ciment, Managing Director and Head of Americas Equities Trading at BNY and a distinguished leader in electronic trading, offers unparalleled expertise in delivering advanced technology, execution solutions, and a steadfast commitment to client success.

RTX Technologies is developing robust infrastructure and execution tools to lead 24-hour US equities trading, empowering market participants to trade with assurance. With the advisory support of Rick Roberts and Daniel Ciment, we are positioned to transform continuous trading and build trust, enabling more participants to execute trades in a 24-hour market.

About RTX Technologies LLC

RTX Technologies is an innovation-driven trading technology company focused on solving some of the most challenging trade execution problems. RTX solutions deliver most optimized execution, as per client choices, while minimizing inefficiencies of market structure. RTX solutions are built for deployment at scale and open for benchmarking to prove superior technology, operational simplicity, and configurability.
